The audience entered into the spirit of the program all the more readily because it was asked to stand and join in the singing of the processional and

it was asked to stand and join in the singing of the processional and recessional numbers.

The quaint old carols have a thrill of their very own, and the choir of St. Paul's yesterday afternoon put a wealth of sweetness and clearness a wealth of sweetness and clearness into them, which could not fail to charm. Several of the carols were sung without the plano, and all of these were exquisite. Perhaps the most beautiful number of all was Adams' "O Holy Night." in which Mrs. Frances West Reinhardt sang the solo. Her clear, full notes, heard above the singing of the chorus, produced an extremely beautiful effect. Tschatkowshy's "A Legend," of all known drugs, creosote is recognized by the medical fraternity was also particularly lovely. The was also particularly lovely, was also particularly lovely. The decorations of the stage, carried out in cedar trees and tall lighted candles, added no little to the holf-day spirit, and to the enjoyment of the program.

#### A Flexible Shoe for Your Flexible Foot

Nature, in her wisdom, designed your foot arch to flex when you walk. Why restrain it in shoes that are rigid and without natural lines? "The foot is like a contilever spring," wrote a noted doctor. "The Cantiever is the most comfortable shoe I have ever worn," said a trained nurse; and another woman said, "In Cantilever Shoes I feel as though I were flying."

It is because of the flexible shank and natural lines of the Cantilever Shoe that you will derive such comfort from it. And because of its graceful appearance and its harmony with this Spring's shoe styles you will continue to the continue of the continue vere flying." see it worn wherever daytime cos-tumes are worn. Fine workmanship, splendid materials and reasonable prices add to make the Cantilever de-sirable.

Grace and Youth.

Grace and Youth.

The graceful carriage and youthful walk of the Cantilever Woman are often admired. Her feet are free. She walks naturally, with a minimum of effort. Flexing with every step, Cantilever Shoes make her feel as though she wore the wings of Mercury.

Though you may not be conscious of it, there are few things that spoil a good disposition quicker than shoes that nag you. Nerve strain, leading to backache, hendache and even to pains like those of rheumatism, may be caused by high heels and by shoes that bind and restrict the feet. Many writers on health and beauty subjects are now pointing out the importance of a woman's shoe in respect to her health, happiness and personal attractiveness.

Feel and Look Better.

Feel and Look Better.

Feel and Look Better.

You were given two marvelously constructed feet. Try on a pair of Cantilever shoes suited to their needs. Keep your feet well and spare yourself the misery that has come to so many women. If wrongly designed shoes have already begun to injure your feet, a change to Cantilevers will help them. Weakened arches will be strengthened by proper exercise; your improved circulation will make you feel better and look better.
